Jalil Ogunniyi

Software Engineer (Full stack)

I'm a highly adaptable full stack software engineer with a strong technical background in web development and a preferred interest in working with agile teams and contributing to innovative software solutions across different disciplines. I possess a diligent work ethic, impeccable organisational skills and excellent interpersonal skills.

PROFESSIONAL EXPERIENCE

Software Engineer

Branch International *(04/2019 — present)*

Roles & Achievements

- Enabled a key company financial strategy by designing and building a payment integration that allowed routing and attribution of physical cash payments in the order of 20 thousand transactions per week.
- Improved user payment success rates of card and bank transfer payments by improving web API integrations around callback handling and requerying with third party payment and KYC providers.
- Drove customer retention and monthly active users up by leading and delivering android app development for multiple new products including an investment product and a virtual wallet.
- Enabled more efficient workflows for the customer and payment operations teams by delivering admin site improvements around transaction filtering, message escalation, and message queue handling.

Software Engineer

Andela *(10/2018 — present)*

Roles & Achievements

- Improved in-house integration and usability with features like in-app surveys and interactive tutorials, driving up the NPS of Andela's web application for managing and assessing prospective engineering talent.
- Mentored a group of 8 junior developers, by acting as a product manager in the Andela Stackup program.

Field Electrical Engineer

Yankari power company *(06/2017 — 05/2018)*

Roles & Achievements

- Provided electricity and installed AC transformers in 5 developing areas as I worked in a team of experienced electrical engineers on Bauchi state power department projects.
- Member of National Youth Service Corps (NYSC) scheme; Driving Community Development Services(CDS) including rural community sensitizations about health and safety through co-presenting a weekly radio show.
- Expanded weekly radio shows to 2 new radio stations as the Head of Programs for the Publicity and Editorial CDS group. I led a group of 20 team members to coordinate multiple radio shows and a TV program.
